

TORAH - A LIVING HISTORY

In every synagogue in the world the worship service is centered around the Holy Ark with its sacred Torah. Through our Sabbath and Festival readings here at Calvary, our scroll has brought to life the history of the Jewish people. Our weekly excursions into our past encompass the lessons learned by our forbearers and enable us to chart the paths for ourselves and for our children and for their children one day.

Our Ark has been designed to hold Memorial Plaques on the inside door panels. During services, the Ark doors will remain open. Each name inscribed is the continuation and perpetuation of one's presence in our sanctuary of worship.

Please select one of the following inscription choices, then complete form by printing all information requested.
